Denis Razvodovskij has served as our President, Treasurer and as a Director, from July 17, 2015, until the current date. Our board of directors is comprised of one person: Denis Razvodovskij.

We are authorized to issue 75,000,000 shares of common stock, par value \$0.001 per share. On January 20, 2016, Denis Razvodovskij, our President and a Director purchased an aggregate of 2,000,000 shares of common stock at \$0.001 per share, for aggregate proceeds of \$2,000.

IN GENERAL

We were incorporated on July 17, 2015 in the State of Nevada, USA. The Company's business operations are located in Lithuania. Newmarkt Corp. since inception to the date of this filing has generated limited revenues in Lithuania. We have never declared bankruptcy, have never been in receivership, and have never been involved in any legal action or proceedings.

From inception until the date of this filing we have had limited operating activities, primarily consisting of the incorporation of our company, the initial equity funding by our sole officer and director, purchasing our equipment and entering into service agreements with our first customer, we also have leased three offices until the day of this filing and registered a webpage www.newmarktcorp.com and fill it in with basic initial information about us. We received our initial funding of \$2,000 from our sole officer and director who purchased 2,000,000 shares of common stock at \$0.001 per share.

Newmarkt Corp. is currently in negotiations with three potential customers Trav Lt and Around Lithuania travel agencies, which are interested in our service and we are planning to sing service agreements with them in the very near future, but there is no guarantee that we will reach agreements with these two potential customers.

We are a start-up company, which is in the business of renting out bicycles, Segways and related equipment. To implement our plan of operations we require a minimum funding of \$40,000 for the next twelve months. After twelve months period we may need additional financing. If we do not generate any additional revenue we may need a minimum of \$10,000 of additional funding to pay for SEC filing requirements. Denis Razvodovskij, our President and a Director, has agreed to loan the Company funds, however, he has no firm commitment, arrangement or legal obligation to advance or loan funds to the Company. The Company's registration address is located at P.O. Box 1408, 5348 Vegas drive 89108 Las Vegas, Nevada, USA.

Our operations to date have been devoted primarily to start-up and development activities, which include:

- (i) Formation of the Company;
- (ii) Development of our 12 moth business plan;
- (iii) Leasing a place to offer, store and service our equipment;
- (iv) Purchasing our operating equipment;
- (v) Website creation;
- (vi) Signing service agreements with our first customers.

INITIAL FOCUS OF OUR BUSINESS

Newmarkt Corp. represents itself as bicycle and Segway renting out company. We are offering such service to touristic companies at the moment where tourists, friends, families can organize, plan, develop their own unique vacation on bikes and Segway for a long time, just for a day or for a couple of hours.

We are in the early stages of developing our growing plan to offer a rent bicycle service in Lithuania. We believe that the fact that the city of Vilnius, where we are starting our business, is popular among tourists gives the Company more opportunities to succeed.

We currently have some revenues and some operating history. The Company currently has two major customers to work with. We expect to get other customers and expand our service sales and our operations by the end of the fiscal year. Our plan of operations over the 12 month period following successful completion of our offering is to develop and establish our bicycles renting business by establishing our second and third office, developing our website, attempting to enter into more supply agreements with prospective distributors and manufacturers of bicycles and Segways, engage in advertising and marketing activities and hire personal and sales service specialist.

Newmarkt Corp. is currently in negotiations with two potential customers Trav Lt and Around Lithuania travel agencies, which are interested in our service and we are planning to sing service agreements with them in the very near future.

EQUIPMENT

We believe that rental bicycle has never been more in demand these days now that gas prices are rising, and tourists would rather rent bicycles rather than cars on a short distance of traveling. Our most obvious startup requirements for a renting business are bicycles, Segways and safety equipment. We consider the fact that cycling can be dangerous and in this case we will provide our customers with helmets and safety equipment. The Company does not maintain any liability insurance with customer injuries while renting your equipment.

The Company is planning to expand the range of offered equipment. There will be dual wheels self-balancing electric scooter, balancing electronic skateboards; additional safety equipment is accordance to purchased units of equipment and initial spare parts.

We do not believe that any existing or probable government regulation on our business, including any applicable export or import regulation or control imposed by China or the Lithuania will have a material impact on the way we conduct our business.

FACILITIES

We currently rent our physical property in Lithuania. Our current business address is Seimyniskiu g. 23 Vilnius 09200 Lithuania. Our telephone number is (705) 2078574. This location serves as our primary office for planning and implementing our business plan. Item 5. Market for Common Equity and Related Stockholder Matters

MARKET INFORMATION

ADMISSION TO QUOTATION ON THE OTC BULLETIN BOARD

We intend to have our common stock be quoted on the OTC Bulletin Board. If our securities are not quoted on the OTC Bulletin Board, a security holder may find it more difficult to dispose of, or to obtain accurate quotations as to the market value of our securities. The OTC Bulletin Board differs from national and regional stock exchanges in that it: (i) is not situated in a single location but operates through communication of bids, offers and confirmations between broker-dealers, and (ii) securities admitted to quotation are offered by one or more Broker- dealers rather than the “specialist” common to stock exchanges.

To qualify for quotation on the OTC Bulletin Board, an equity security must have one registered broker-dealer, known as the market maker, willing to list bid or sale quotations and to sponsor the company listing. We do not yet have an agreement with a registered broker-dealer, as the market maker, willing to list bid or sale quotations and to sponsor the Company listing. If the Company meets the qualifications for trading securities on the OTC Bulletin Board our securities will trade on the OTC Bulletin Board until a future time, if at all. We may not now and it may never qualify for quotation on the OTC Bulletin Board.

To the Board of Directors and Stockholders of

Newmarkt Corp.

There were 2,667,500 shares of common stock issued and outstanding as of April 30, 2017.

We have audited the accompanying balance sheet of Newmarkt Corp. (the "Company") as of April 30, 2017 and 2016, and the related **OTHER STOCKHOLDER MATTERS** stockholders deficit, and cash flows for the year ended April 30, 2017 and for the period from inception (July 17, 2015) to April 30, 2016. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Item 6. Selected Financial Data
 We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations
 Revenue and cost of goods sold
 In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Newmarkt Corp. as of April 30, 2017 and 2016, and the results of its operations and cash flows for the year ended April 30, 2017 and for the period from inception (July 17, 2015) to April 30, 2016 in accordance with generally accepted accounting principles of the United States of America relating to bicycles and Segway.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As described in **Operating the financial** statements, the Company had not generated sufficient revenue to cover its operating costs, has incurred losses from inception, and has an accumulated deficit of \$43,621 at April 30, 2017. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. Audit Fees of \$12,000 and \$9,500; Advertising Expense of \$1,200 and \$0; Depreciation Expense of \$13,548 and \$2,302; Bank Service Charges of \$1,222 and \$163; Professional Fees of \$6,003 and \$0; Legal of \$5,300 and \$1,650; Rent Expense of \$10,080 and \$1,200; Website Expenses of \$0 and \$420; Repairs and Maintenance of \$10,437 and \$0; Retired Property of \$1,195 and \$0.

NEWMARKT CORP.		
Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)). The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, the Company conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of April 30, 2017 using the criteria established in 2016, SOX 404 - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO - 2013").	2,800	2,800

Total Liabilities and Stockholders' Deficit While not being legally obligated to have an audit committee, it is the management's responsibility to establish and maintain adequate internal control over financial reporting. While not being legally obligated to have an audit committee, it is the management's responsibility to establish and maintain adequate internal control over financial reporting. Such a committee, including a financial expert member, is an utmost important entity level control over the Company's financial statement. Currently the Board of Directors acts in the capacity of the Audit Committee, and does not include a member that is considered to be independent of management to provide the necessary oversight over management's activities.

- See accompanying notes to financial statements.*
- We did not maintain appropriate cash controls – As of April 30, 2017, the Company has not maintained sufficient internal controls over financial reporting for cash, including failure to segregate cash handling and accounting functions, and did not require dual signatures on the Company's bank accounts. Alternatively, the effects of poor cash controls were mitigated by the fact that the Company had limited transactions in its bank accounts.
 - We did not implement appropriate information technology controls – As at April 30, 2017, the Company retains copies of all financial data and material agreements; however there is no formal procedure or evidence of normal backup of the Company's data or off-site storage of data in the event of theft, misplacement, or loss due to unmitigated factors.

Accordingly, the Company concluded that these control deficiencies resulted in a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis by the company's internal controls.

As a result of the material weaknesses described above, management has concluded that the Company did not maintain effective internal control over financial reporting as of April 30, 2017 based on criteria established in Internal Control- Integrated Framework issued by COSO.

Changes in Internal Controls over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during the year ended April 30, 2017, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

NOTES TO THE FINANCIAL STATEMENTS
~~APRIL 30, 2017~~
~~NEWMARKT CORP.~~
STATEMENT OF CASH FLOWS

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Newmarkt Corp. (“the Company”, “we”, “us” or “our”) was incorporated on July 17, 2015, under the laws of the State of Nevada, for the purpose of the renting different kind of Segway and bicycles, dual wheels self-balancing electric scooter and related safety equipment.

NOTE 2 – GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of the Company as a going concern. However, the Company had not generated sufficient revenue to cover its operating costs, has incurred losses from inception, and has an accumulated deficit of \$43,621 at April 30, 2017. These factors, among others, raise substantial doubt about the Company’s ability to continue as a going concern.

Management anticipates that the Company will be dependent, for the near future, on additional investment capital to fund operating expenses. The Company intends to position itself so that it will be able to raise additional funds through the capital markets. In light of management’s efforts, there are no assurances that the Company will be successful in this or any of its endeavors or become financially viable and continue as a going concern.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America.

Level 1: defined as observable inputs such as quoted prices in active markets;
Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable;
Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Fair Value of Financial Instruments

The carrying value of cash and the Company’s loan from shareholder approximates its fair value due to their short-term maturity. The company has no assets or liabilities valued at fair value on a recurring basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments with the original maturities of three months or less to be cash equivalents.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Depreciation, Amortization, and Capitalization

The Company records depreciation and amortization when appropriate using straight-line balance method over the estimated useful life of the assets. We estimate that the useful life of sport equipment (different kind of Segway and bicycles, dual wheels self-balancing electric scooter) is five years, related safety equipment is two years. Useful life of current version of web site is one year. Expenditures for maintenance and repairs are charged to expense as incurred. Additions, major renewals and replacements that increase the property's useful life are capitalized. Property sold or retired, together with the related accumulated depreciation is removed from the appropriated accounts and the resultant gain or loss is included in net income.

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Revenue Recognition

The Company recognizes revenue in accordance with ASC topic 605 "Revenue Recognition". Revenue is recognized when persuasive evidence of an arrangement exists, product delivery has occurred, the selling price to the customer is fixed or determinable and collectability of the revenue is reasonably assured. The Company rents its equipment on a short-term basis and records the revenue at the time the rental is completed.

Stock-Based Compensation

Stock-based compensation is accounted for at fair value in accordance with ASC Topic 718. To date, the Company has not adopted a stock option plan and has not granted any stock options.

Basic Income (Loss) Per Share

The Company computes income (loss) per share in accordance with FASB ASC 260 "Earnings per Share". Basic loss per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted income (loss) per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive. As of April 30, 2017 there were no potentially dilutive debt or equity instruments issued or outstanding.

The Company has approximately \$43,621 of net operating losses (“NOL”) available to be carried forward to offset taxable income, if any, in future years which expire in fiscal 2035. In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the assessment, management has established a full valuation allowance against all of the deferred tax asset relating to NOLs for every period because it is more likely than not that all of the deferred tax asset will not be realized.
